A SUGGESTED 4-H CLUB CREED

Reserve

I believe in the good Earth, in the beauty and strength of its hills and valleys, its fields and forests, its orchards and gardens, its cattle on a thousand hills.

I believe in the educational, spiritual and character building value of work on the land in the growing of crops, the raising of animals, the production of flowers and fruits - work with the Creator.

I believe in the country home where father, mother and children work and strive together, grow up together and share in each other's joys, hopes and faith.

I believe that out of rural homes come most of the strong, accomplishing men and women of the nation.

And because I believe these things, I shall do my best, through 4-H Club Work, to help build an efficient agriculture and homes of peace, beauty and honor all over America and throughout the world.

Dr. C. B. Smith
